## FOREWORD

"Morgan's Official Street Directory" was first published in 1916, since when consistent efforts have been made to make the Directory worthy of our progressive Metropolis. The sales to all sections of the community have increased steadily each year, which shows that our policy has been on the right lines. The appreciation shown by users of this book and comments of overseas visitors have been most gratifying to the publishers and every effort will be made to include worth-while improvements in subsequent issues.

For those who are unacquainted with the methods employed in obtaining information in the shortest possible time, particulars are shown on pages 17 and 18.

A copy of "Morgan's Main Road Map of Melbourne and Suburbs" showing the main arterial roads is again included in the specially prepared envelope attachment on the back inside cover. It assists users of this book to ascertain the shortest routes when travelling between suburbs. Additional copies of this map can be obtained for 1/- each from all newsagents and stationers.

While every care is taken in compiling this Directory, the publishers accept no responsibility for any error or omission, as it is possible that a limited number of street names may have been changed, but not officially notified in time for publication. We are always glad to hear of any amendments or additions that may be desirable.

The publication, and all contents, have been fully protected by copyrights, and copyists who infringe, in any way, are warned that the publishers will issue legal proceedings, if necessary, in order to protect their rights.

"Morgan's Map of the City of Melbourne" can be conveniently carried in the pocket, and is an invaluable guide to any location in the City of Melbourne. It is procurable from all leading stationers and book-stalls at 1/- per copy.
